ART UNIT 2876

Art Unit: 2876

Reasons for Allowance

1. Claims 10-13,15-19,21-34 allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest the "networked" card processing system (examiner's words) as currently claimed, as the claims are read in light of the specification. The Linden and Laing references disclose a card processing system which has an external processing means. Linden discloses a plurality of processing stations connected to a processing means. However, the stations of Linden are all contained on a single structure. As currently claimed, as the claims are read in light of the disclosure, the currently claimed personalization stations are networked to separate server, controller and management system and each personalization system is remote from others. There is no motivation to significantly alter the structure of Linden to create the remote personalization systems as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl Frech whose telephone number is (703) 305-3491.
